

The Color Spot daylight lamp.

Colour and effect in a new light

Spies Hecker – simply closer.

Optimal light conditions any time.

Whether carrying out damage appraisals, comparing the car colour with samples or checking the freshly painted finish for dust inclusions, the right light is critical to get it right.

The cordless Color Spot helps refinishers to choose the right colour. Light intensity levels can be adjusted to three different settings making it possible to compare both light and very dark metallic colours accurately. In addition to providing bright daylight, comparable to midday light, Color Spot can be switched to provide warm evening light. This option makes it easier to select the right colour variant. Thanks to energy-saving LEDs and a long battery life, Color Spot is ready for use all day long.

Technical data/information:

Color Spot specifications

Operating voltage	17...20 V DC
Operating current (charging)	0.700...0.850 A
Output	17 W max.
Charge time	max. 3...4 h
Protection type	IP20
Protection class	III (SELV)
Dimensions	ca. 255mm x 68mm x 80mm
Weight (without battery)	205g

Battery specifications

Type	Ni-MH
Voltage	9.6 V
Capacity	1900-2100mAh
Dimensions	29.5 x 29.5 x 101 (mm)
Weight	223g
