- Easy handling
- Easy menu selection and navigation by scroll wheel
- Clearly structured English (multilingual) display
- Operated with common alkaline batteries

Acquire Quantum Spectrophotometer

3 STEPS TO THE RIGHT COLOUR.

Determine the color.

With the state-of-the-art LED measuring optics every colour - no matter if solid or effect colour - can be determined in less than a minute. Place the Acquire spectro on the cleaned and polished car body close to the damaged area. Everything else the device does for you.
