- Broad product range
- High colour accuracy and good opacity
- Practical working aids

Permafleet®

Spies Hecker – simply closer.

Permafleets®.

Balanced paint systems for commercial vehicles.

Spies Hecker supplies special paint systems that can be adapted precisely to the particular application. Whatever is involved – OEM paintwork, a respray or a refinish – with the Permafleets® paint system for commercial vehicles, you've made the right choice.

Hi-Class systems.

For exceptionally high-quality 3- or 4-coat paintwork: Wash primer, surfacer and top coat or clear over base. The paint is applied to sanding surfacer.

Top systems.

For a cost-effective 3- or 4-coat commercial vehicle finish: Wash primer, surfacer and top coat or clear over base. The system is applied wet-on-wet.

Economy systems.

For a cost-effective 2-coat finish. Primer surfacer and top coat are applied wet-on-wet.
