Spies Hecker – simply closer.

Fast. Easy. Reliable. Just what you want from a matt clearcoat!

Now you can match any gloss level and give your customers high-quality matt finishes more easily and more quickly than ever.

Ease of use

Based on the latest Axalta technology, our two new clears are very robust and easy to apply. They also feature defined drying and flash-off times – so you can achieve smooth matt surface results with lasting quality but minimum effort, while saving energy.

Flexibility

This best-in-class system is flexible enough to match any gloss level – even the trendy ultra-low gloss ones used on modern OEM vehicles. It's also suitable for use on any panel, multi-panel and overall repair.

Make matt colour matching simple

Phoenix Cloud colour software indicates the matching gloss level with the colour formula. And our Color Dialog Phoenix spectrophotometer makes identifying the correct matt colour quick and easy too.

FIND THE RIGHT GLOSS LEVEL FOR ANY MATT REFINISH JOB – FAST

Application over Permahyd Hi-TEC Base Coat / Permahyd Base Coat*

	Matt Level 1 (5-10 Gloss Unit)	Matt Level 2 (11-15 Gloss Unit)	Matt Level 3 (16-25 Gloss Unit)	Matt Level 4 (26-35 Gloss Unit)	Matt Level 5 (36-50 Gloss Unit)	Matt Level 6 (51-65 Gloss Unit)
Permacron Matt System Clear Coat 8185	80	65	45	40	20	0
Permacron Semi-Gloss System Clear Coat 8170	20	35	55	60	80	100
