

Adding Items Manually to the Cart

Starting from the shopping cart, there are two ways how you can add additional items. You can either manually enter the material code / EAN code to the cart, or you use the bar code reader. Short codes like e.g. „8800“ will not be recognized here.

Prepare order | Verify & place order | Order acknowledgment

Item #	Material code	Article reference	Description	Requested quantity	Unit	Availability	Availability date	
	<input type="text" value="4025331236461"/>			<input type="text" value="10"/>		TBD		
	<input type="text" value="4025331820284"/>			<input type="text" value="20"/>		TBD		
	<input type="text" value="4025331224228"/>			<input type="text" value="30"/>		TBD		
	<input type="text" value=" "/>			<input type="text"/>				

Once the cursor is placed in a free material code field, the field will be highlighted and you can use your bar code reader to add another item.

Click **“Enter”** and the item is added to the cart.
