

Saved Orders

In case there are certain product combinations which you will order repeatedly, consider to store them as **“Saved Orders”**.

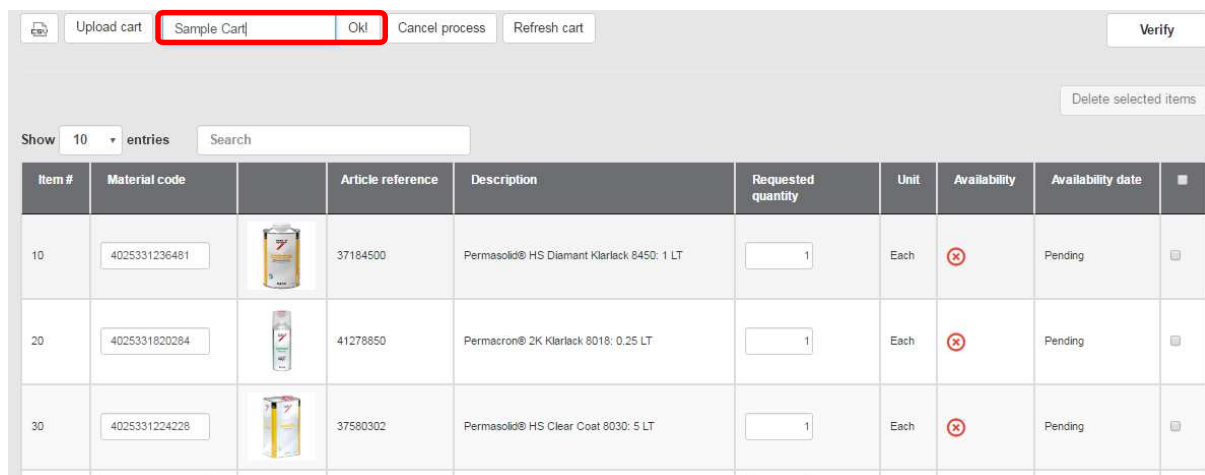

For this, simply click the **„Save cart“** button, once your shopping list is complete.

The screenshot shows a web interface with a top navigation bar containing buttons: 'Upload cart', 'Save cart' (highlighted with a red box), 'Cancel process', 'Refresh cart', and 'Verify'. Below the navigation bar is a search area with a 'Delete selected items' button. A table displays three items with columns: Item #, Material code, Article reference, Description, Requested quantity, Unit, Availability, and Availability date. The items listed are:

Item #	Material code	Article reference	Description	Requested quantity	Unit	Availability	Availability date
	4025331236481			10		TBD	
	4025331820284			20		TBD	
	4025331224228			30		TBD	

A text field pops up where you enter the name of this particular cart. Confirm with **“OK”**.

The screenshot shows the same web interface as above, but with a dialog box open. The dialog box has a text input field containing 'Sample Cart' and an 'Ok!' button (highlighted with a red box). The 'Cancel process' and 'Refresh cart' buttons are also visible. The table below the dialog box shows the same three items, but with more detailed information:

Item #	Material code	Article reference	Description	Requested quantity	Unit	Availability	Availability date
10	4025331236481	37184500	Permasolid® HS Diamant Klarlack 8450: 1 LT	1	Each	⊗	Pending
20	4025331820284	41278850	Permacron® 2K Klarlack 8018: 0.25 LT	1	Each	⊗	Pending
30	4025331224228	37580302	Permasolid® HS Clear Coat 8030: 5 LT	1	Each	⊗	Pending

The cart is saved now. You can keep up to 10 different saved orders at the same time.

You can retrieve your saved carts under „**Ordering**“, Submenu „**Saved Orders**“.

The screenshot shows the 'Saved carts' section of a web application. At the top, there is a navigation bar with tabs for 'Products', 'Accessories', 'Ordering', 'Track & Trace', 'Admin', 'My Account', and 'Help'. The 'Ordering' tab is active, and a sub-menu is open with options: 'Create order', 'Cart upload', and 'Saved orders'. Below this, the 'Saved carts' section is displayed. It features a 'Create cart' button and four individual cart cards. Each card has a red header with its name: 'Last active cart', 'Special Cart', 'Sample Cart', and 'Sample Cart 17'. Under each header, there is an 'ITEMS' section listing items with their IDs and descriptions. Below the items, there is a table with columns for 'CUSTOMER NUMBER', 'SHIP-TO', and 'PURCHASE ORDER'. At the bottom of each card, there are buttons for 'ACTIVATE', 'APPEND ALL', 'RENAME', and 'DELETE'.

There are two ways to recover “**Saved Orders**” for your next purchase:

“**Activate**” and “**Append All**”.

- With the button “**Activate**” you can use the content of the respective cart for your next order. However, this will overwrite any other previous items in your cart!
- If you click on “**Append all**”, the content of that saved cart will be added to the current cart. After that, you can still manually add or delete items, or upload a file with additional items to make your order complete.

This is a close-up view of the 'Sample Cart' card. It shows the 'ITEMS' section with three items: '4025331235811 - Permahyd® Basislack 280 super tiefschwarz: 1 LT - x1', '4025331469421 - Permahyd® Flex-TEC Converter 9011: 2.5 LT - x1', and '4025331236214 - Permahyd® Mischlack 280 WB 800 Effekt: 0.5 LT - x1'. Below the items, there is a table with columns for 'CUSTOMER NUMBER', 'SHIP-TO', and 'PURCHASE ORDER'. At the bottom of the card, there are buttons for 'ACTIVATE', 'APPEND ALL', 'RENAME', and 'DELETE'. A red box highlights the bottom section of the card, including the buttons and the table.

Your „**Last Active Cart**“ will be found under „**Saved Orders**“ as well.

„**Saved Orders**“ can be renamed or deleted at any time.
