

## Spies Hecker Services.

We are committed to providing you with efficient, professional paint products, colour tools and extensive training of the highest level.

### Colour Tools - Simplicity and precision.

We're all aware of situations where the colour information for a vehicle is no longer up-to-date or missing altogether. With the easy-to-use ColorDialog spectrophotometer, you're given the support you need. The CRplus colour search program evaluates the electronically collected data and outputs a precise colour formula in a matter of seconds. It couldn't be simpler. [Click here to read more.](#)

### Spies Hecker training - Worldwide.

Always at the forefront of developments, gathering experience with new products and trying out forward-looking application techniques. All this is more important than ever. At the Spies Hecker Training Centres, seminar programmes are tailored to specific small groups. New training methods ensure that newly acquired knowledge is immediately put into practice.
