

Spray like the

The limited edition

Spray like the World Champions with the limited edition Race-Gun.

Functionality at its purest.

A tribute to Mercedes-AMG Petronas Motorsport on capturing the 2018 FIA Formula One™ World Constructor's Championship.

Exclusive limited edition model!

Stylish design.

With its majestic, matte black carbon look and dynamic Mercedes-AMG Petronas Motorsport profiling, the Race-Gun is a special, limited edition of just 500 pieces – each with its own unique serial number engraved on. The result of close cooperation between Spies Hecker and the team, the design is based on the team's 2018 world championship winning car, the W09 EQ Power+. Its filigree styling, petrol-green, 'Electric Flow' colouring and the starting numbers of the two drivers Lewis Hamilton and Valtteri Bottas have all been integrated into the design.

World champion performance every day.

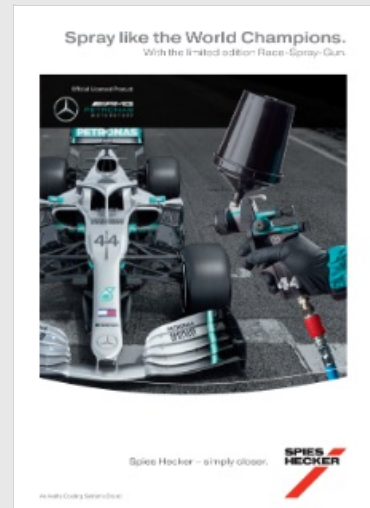

The Race-Gun is not just a collector's item to be kept on the shelf. It's perfect for continuous, day-to-day use in the paint booth. In fact, with its optimised high-pressure technology, ease of use and ergonomic design, it helps inspire the Mercedes-AMG Petronas Motorsport team every day.

The advantages of the SATAjet 5000 B RP at a glance:

- Optimised nozzle concept for maximum versatility in terms of inlet pressure and spray distance.
- Compact, ergonomically shaped handle.
- Corrosion-resistant surface for easy cleaning.
- Easy-to-adjust controls.
- Simple, secure and fast paint needle insertion.
- Optimized half-turn spray fan control.
