## Thank you for having used "MyTraining".

In the last three months, we offered all our customers the eLearning program **MyTraining** free of charge.

As communicated before, the eLearning program has been discontinued on Thursday 25 June 2020.

We invite you to continue improving your knowledge with our extensive range of online training videos. These videos are aimed specifically at professional refinishers with tips on how to repair the latest car paints - and offer illustrative training videos on specific repair techniques.

The videos are available on our [website](#) and on our [official YouTube channel](#).
