

Permasolid® VHS 3230

Permasolid® VHS 3230 is a high-performance hardener for epoxy resins, providing excellent adhesion and mechanical properties.

It is suitable for use in a wide range of applications, including structural bonding and repair work.

- Permasolid® VHS 3220 (1L) is a high-performance hardener for epoxy resins, providing excellent adhesion and mechanical properties.
- Permasolid® VHS 3230 (2L) is a high-performance hardener for epoxy resins, providing excellent adhesion and mechanical properties.
- Permasolid® VHS 3240 (Extra 1L) is a high-performance hardener for epoxy resins, providing excellent adhesion and mechanical properties.

Permasolid® VHS 3230

Permasolid® VHS Performance Härter (Permasolid® HS 5320)

- Permasolid® VHS 3425 * is a high-performance hardener for epoxy resins, providing excellent adhesion and mechanical properties.
- Permasolid® VHS 3440 ** is a high-performance hardener for epoxy resins, providing excellent adhesion and mechanical properties.

* Permasolid® VHS 3425 is suitable for use with Permasolid® HS 5320 epoxy resin.
